All bids submitted in response to this invitation shall become the property of Jefferson County and will be a matter of public record available for review.

2. Bid Submissions During Time of Inclement Weather, Disaster, or Emergency

In case of inclement weather or any other unforeseen event causing the County to close for business on the date of a bid/proposal/statement of qualifications submission deadline, the bid closing will automatically be postponed until the next business day that County offices are open to the public. Should inclement weather conditions or any other unforeseen event cause delays in courier service operations, the County may issue an addendum to all known vendors interested in the project to extend the deadline. It will be the responsibility of the vendor to notify the county of their interest in the project should these conditions impact their ability to submit a bid/proposal/statement of qualifications submission before the stated deadline. The County reserves the right to make the final judgement call to extend any deadline.

Should an emergency or unanticipated event interrupt normal County processes, and bid/proposal/statement of qualifications submissions cannot be received by the Jefferson County Purchasing Department's office by the exact time specified in the IFB and urgent County requirements preclude amendment to the IFB, the time specified for receipt of bids will be deemed to be extended to the same time of day specified in the solicitation on the first business day on which normal County processes resume.

3. Courthouse Security

Bidders are advised that all visitors to the Courthouse must pass through Security. **Bidders planning to hand deliver bids must allow time to get through Security, as a delay in entering the Courthouse will not be accepted as an excuse for late submittal.** Mondays and Tuesdays are particularly heavy days. Bidders are strongly urged to plan accordingly.

4. Preparation of Bids

The bid shall be legibly printed in ink or typed.

If a unit price or extension already entered is to be altered, it shall be crossed out and initialed in ink by the bidder.

The bid shall be legally signed and shall include the complete address of the bidder.

Jefferson County is exempt from Federal and State Sales Taxes, and such taxes shall not be included in bid prices.

5. Signatures

All bids, notifications, claims, and statements must be signed by an individual authorized to bind the bidder. The individual signing certifies, under penalty of perjury, that he or she has the legal authorization to bind the bidder.

Jefferson County reserves the right to reject any and all bids and to waive any informalities and minor irregularities or defects in bids. Bids may be withdrawn in person by a bidder or authorized representative, provided their identity is made known and a receipt is signed for the bid, but only if the withdrawal is made prior to the time set for receipt of bids. Bids are an irrevocable offer and may not be withdrawn within 90 days after opening date.

8. Emergency/Declared Disaster Requirements

In the event of an emergency or if Jefferson County is declared a disaster area, by the County, State, or Federal Government, this Acceptance of Offer may be subjected to unusual usage. Contractor shall service the county during such an emergency or declared disaster under the same terms and conditions that apply during non-emergency/disaster conditions. The pricing as specified in this Acceptance of Offer shall apply to serving the County's needs regardless of the circumstances. If Contractor is unable to supply the services under the terms of the Acceptance of Offer, then Contractor shall provide proof of such disruption and a copy of the invoice from Contractor's supplier(s). Additional profit margin as a result of supplying services during an emergency or declared disaster shall not be permitted. In the event that additional equipment, supplies, and materials are required during the declared disaster, additional shipping, handling and drayage fees may apply.

9. Award

The bid will be awarded to the responsible, responsive bidder(s) whose bid, conforming to the solicitation, will be most advantageous to Jefferson County – price and other factors considered. Unless otherwise specified in this IFB, Jefferson County reserves the right to accept a bid in whole or in part, and to award by item or by group, whichever is deemed to be in the best interest of Jefferson County. Any bidder who is in default to Jefferson County at the time of submittal of the bid shall have that bid rejected. Jefferson County reserves the right to clarify any contractual terms with the concurrence of the Contractor; however, any substantial nonconformity in the offer, as determined by Jefferson County, shall be deemed non-responsive and the offer rejected.

In evaluating bids, Jefferson County shall consider the qualifications of the bidders, and, where applicable, operating costs, delivery time, maintenance requirements, performance data, and guarantees of materials and equipment. In addition, Jefferson County may conduct such investigation as it deems necessary to assist in the evaluation of a bid and to establish the responsibility, qualifications, and financial ability of the bidders to fulfill the contract.

Jefferson County reserves the right to award this contract on the basis of **lowest and best bid** in accordance with the laws of the State of Texas, to waive any formality or irregularity, to make awards to more than one offeror, and/or to reject any or all bids. In the event the lowest dollar offeror meeting specifications is not awarded a contract, Offeror may appear before the Commissioners' Court and

present evidence concerning Offeror responsibility after officially notifying the Office of the Purchasing Agent of Offeror's intent to appear.

10. **Contract**

A response to an IFB is an offer to contract with Jefferson County based upon the terms, conditions, and specifications contained in the IFB. Bids do not become contracts unless and until they are executed by Jefferson County, eliminating a formal signing of a separate contract. For that reason, all of the terms and conditions of the contract are contained in the IFB, unless any of the terms and conditions is modified by an IFB Amendment, a Contract Amendment, or by mutually agreed terms and conditions in the contract documents.

14. **Changes and Addenda to Bid Documents**

All bids submitted in response to this invitation shall become the property of Jefferson County and will be a matter of public record available for review.

2. Bid Submissions During Time of Inclement Weather, Disaster, or Emergency

In case of inclement weather or any other unforeseen event causing the County to close for business on the date of a bid/proposal/statement of qualifications submission deadline, the bid closing will automatically be postponed until the next business day that County offices are open to the public. Should inclement weather conditions or any other unforeseen event cause delays in courier service operations, the County may issue an addendum to all known vendors interested in the project to extend the deadline. It will be the responsibility of the vendor to notify the county of their interest in the project should these conditions impact their ability to submit a bid/proposal/statement of qualifications submission before the stated deadline. The County reserves the right to make the final judgement call to extend any deadline.

Should an emergency or unanticipated event interrupt normal County processes, and bid/proposal/statement of qualifications submissions cannot be received by the Jefferson County Purchasing Department's office by the exact time specified in the IFB and urgent County requirements preclude amendment to the IFB, the time specified for receipt of bids will be deemed to be extended to the same time of day specified in the solicitation on the first business day on which normal County processes resume.

“County” – Jefferson County, Texas.

“Contractor” – The bidder whose proposal is accepted by Jefferson County.

General Conditions of Bidding and Terms of Contract

By execution of this document, the vendor accepts all general and special conditions of the contract as outlined below and in the specifications and plans.

1. Bidding

1.1 Bids. All bids must be submitted on the bid form furnished in this package.

1.2 Authorized Signatures. The bid must be executed personally by the vendor, duly authorized partner of the partnership, or duly authorized officer of the corporation. If executed by an agent, a power of attorney or other evidence of authority to act on behalf of the vendor shall accompany the bid to become a valid bid.

1.3 Late Bids. Bids must be in the office of the Jefferson County Purchasing Agent before or at the specified time and date bids are due. Bids received after the submission deadline shall be rejected as non-responsive and returned unopened.

1.4 Withdrawal of Bids Prior to Bid Opening. A bid may be withdrawn before the opening date by submitting a written request to the Purchasing Agent. If time allows, the bidder may submit a new bid. Bidder assumes full responsibility for submitting a new bid before or at the specified time and date bids are due. Jefferson County reserves the right to withdraw a request for bids before the opening date.

1.5 Bid Amounts. Bids shall show net prices, extensions where applicable and net total. In case of conflict between unit price and extension, the unit price will govern. Any ambiguity in the bid as a result of omission, error, unintelligible or illegible wording shall be interpreted in the favor of Jefferson County.

1.6 Bid Alterations. Bids cannot be altered or amended after submission deadline. Any interlineations, alterations, or erasures made before opening time must be initialed by the signer of the bid, guaranteeing authenticity.

1.7 Addenda. Any interpretations, corrections or changes to the specifications and plans will be made by addenda no later than forty-eight (48) hours prior to the bid opening. Addenda will be posted on the Purchasing web site. Vendors are responsible for monitoring the web site in order to remain informed on addenda. Vendors shall acknowledge receipt of all addenda with submission of bid.

1.8 Responsiveness. A responsive bid shall substantially conform to the requirements of this Invitation to Bid and/or specifications contained herein. Bidders who substitute any other terms, conditions, specifications and/or requirements or who qualify their bids in such a manner as to nullify or limit their liability to the contracting entity shall have their bids deemed non-responsive. Also, bids containing any clause that would limit contracting authority shall be considered non-responsive. Examples of non-responsive bids include but shall not be limited to: a) bids that fail to conform to required delivery schedules as set forth in the bid request; b) bids with prices qualified in such a manner that the bid price cannot be determined, such as with vague wording that may include "price in effect at the time of delivery," and c) bids made contingent upon award of other bids currently under consideration.

1.9 Public Bid Opening. Bidders are invited to be present at the opening of bids. After the official opening of bids, a period of not less than one week is necessary to evaluate bids. The amount of time necessary for bid evaluation may vary and is determined solely by the County. Following the bid evaluation, all bids submitted are available for public review.

Re: Old Asphalt Plant at Viterbo Road and West Port Arthur Road
Honorable Commissioners' Court:

Precinct 2 is in the process of demolishing the above referenced plant and has discovered an old tank car filled with asphaltic oil. In addition, the car is lined with asbestos insulation. Both the asbestos and the asphaltic materials are of such a nature that they can not be disposed of in a land fill. They must be disposed of by contractors that are licensed to handle such materials and in licensed landfills. Cost of removal and disposal for the asphalt would be in the \$10,000 to 15,000 range. The removal of the asphaltic oil and disposal would be in the \$5,000 range. These are just very preliminary estimates on my part. Since the asphalt plant was operated by all four precincts and was used by surrounding cities, I feel that this is a county problem and not just a Precinct 2 problem.

With the Courts' permission I will have specifications for removal and disposal prepared by Safety, Inc. who will perform tests for asbestos. This will allow us to obtain estimates from contractors for disposing of these materials. If we can keep the total removal cost under \$15,000, then formal bid documents will not be required. However, we will still obtain a minimum of three bids to comply with the State Purchasing Act. Should the estimates exceed \$15,000, then an item will be placed on the Commissioners' Court Agenda for approval. If you have any questions, please advise.

Sincerely,

Robert Stroder, P.E.

REPORT DATE: February 16, 1994

REPORT DATE: 94012-212

SCOPE:

Samples of asphaltic cement were secured from the referenced job-site by T&N Personnel on January 31, 1994 and submitted to our laboratory for subsequent tests. The following standard procedures were utilized in performing the laboratory test program:

PROCEDURE

DESCRIPTION

EPA - 418.1
 ASTM-D 3381
 ASTM-D 2270
 ASTM-D 473
 EPA - 1010
 EPA - 8020

TPH
 Specific Gravity
 Viscosity
 Solubility
 Ignitability

AUTHORIZATION:

Sampling, preparation and laboratory testing was authorized by Mr. Robert Stroder, P.E., Jefferson County Engineer on January 26, 1994.

LABORATORY TEST RESULTS:

Laboratory analysis and test results are presented in the "Summary of Laboratory Test Data" attached.

DISCUSSION OF TEST RESULTS:

A review of the laboratory test results indicates a TPH and BETX Content above EPA/TWC levels to allow disposal by normal procedures (solid waste disposal, landfill, etc.). Viscosity CPS, Specific Gravity and Soluble Content do not meet acceptable limits for normal asphaltic cement for road and street construction. The material sampled may be utilized in a cut-back asphaltic solution for prime or tack coat in preparing of subbase, etc. for street and road construction.

We appreciate this opportunity to provide our services for this project. Please let us know should you require additional data or information and "Thanks for Your Support".

COMMISSIONERS' COURT

COUNTY OF JEFFERSON

OF JEFFERSON COUNTY, TEXAS

BE IT REMEMBERED at a meeting of Commissioners' Court of Jefferson County, Texas, held on the ____ day of _____, 2016, on motion made by _____, Commissioner of Precinct No. _____, and seconded by _____, Commissioner of Precinct No. _____, the following Resolution was adopted:

RESOLUTION IN SUPPORT OF THE U.S. HIGHWAY 96 EXPANSION COALITION

WHEREAS, U.S. Highway 96 is designated as a primary evacuation corridor by the State of Texas for the Southeast Texas and Deep East Texas regions, and as a main artery for logistical transport vehicles carrying much-needed food, water, ice, medical supplies and fuel to affected areas and communities after a hurricane makes landfall ; and

WHEREAS, Hurricane Rita made landfall in Southeast Texas in September, 2005, and Hurricane Ike made landfall in Southeast Texas in September, 2008, both forcing a massive evacuation of citizens in Southwest Louisiana and Southeast Texas, whereby untold thousands of citizens from Jefferson, Orange, Hardin, Jasper, Galveston, Chambers, Harris, Liberty, Tyler and Newton Counties utilized this corridor through Sabine, San Augustine and Shelby Counties to evacuate to escape the wrath of Hurricanes Rita and Ike; and

WHEREAS, a bottleneck north of Recreational Road 255 in Jasper County, where the four-lane divided portion of U.S. Highway 96 becomes a two-lane highway running north through Sabine, San Augustine and into Shelby County, created congestion that hindered and, in several cases prevented, the safe evacuation of citizens, including those identified as Special Needs individuals aboard buses and other forms of transport; and

WHEREAS, the completion of a four-lane divided highway on U.S. Highway 96 from Beaumont, Texas to Tenaha, Texas will greatly improve the ability of state and local authorities to safely evacuate citizens and route essential supplies to emergency service workers in the event of future disasters; and

WHEREAS, the Port of Beaumont in Jefferson County is home to the U.S. Surface Deployment and Distribution Command's 842nd Transportation Battalion, and is recognized as the busiest military port in the world, making the expansion of U.S. Highway 96 crucial to the military mission at the Port of Beaumont due to its current connectivity to Fort Polk in Louisiana, and its future connectivity to the Interstate 14 Gulf Coast Strategic Highway in Jasper County, as well as to Interstate 69 in Shelby County, linking the Port of Beaumont directly to military bases throughout the United States; and

WHEREAS, the completion of a four-lane divided highway on U.S. Highway 96 from Beaumont, Texas to Tenaha, Texas will further improve the economic development in the entire East Texas region, providing greater north-south connectivity from the ports in Jefferson and Orange Counties to the rest of the United States, promoting future growth and benefiting the citizens of the State of Texas for many generations to come.

NOW BE IT RESOLVED, that the Commissioners Court of Jefferson County, Texas joins, endorses and supports the efforts made by the U.S. Highway 96 Coalition to promote awareness of the tremendous need to complete construction of a four-lane divided highway from Beaumont, Texas to Tenaha, Texas, and realizes the benefits in evacuation safety, military deployment and economic development that a four-lane divided highway would provide not only to Jasper County's population, but to the entire population in the Southeast Texas and Deep East Texas regions.

UTILITY AND COMMON CARRIER PIPELINE POLICY

GENERAL REQUIREMENTS

Who Must Apply

Any person, company corporation, or public agency desiring to place utility or common carrier pipelines in or above the rights-of-way of public roads in Jefferson County shall obtain a Commissioners' Court Order from Jefferson County Commissioners' Court for the construction, operation and maintenance of said line. The applicant shall comply with all rules, regulations, principles, and specifications herein contained and any other subsequently adopted by Jefferson County Commissioners' Court prior to issuance of the order.

Application

The applicant must complete, in quintuplicate (5), the form herein contained, outlining in detail the proposed installation and its location in public right-of-way. The completed application form must be returned to Jefferson County Engineering Department, at 1149 Pearl Street, 5th Floor, Beaumont, Texas 77701, for approval by Commissioners' Court prior to the start of construction.

Determination

Commissioners' Court shall determine, within a reasonable time after filing of a complete application in the opinion of the County Engineer, the following:

- a. If applicant is a utility, whether applicant is a public utility serving a public purpose; and
- b. If applicant is a pipeline carrier, whether:
 1. It is a common carrier; and,
 2. It serves a public purpose; and,
 3. The proposed pipeline is a parallel line to be placed within fifteen (15) feet of the improved portion of said right-of way.

If Commissioners' Court determines that applicant is not a public utility, or that it is not a common carrier, or that its utility or pipeline shall not serve a public purpose, or that its propose pipeline will be a parallel line placed within fifteen (15) feet of the improved portion of any right-of-way, then, in the event of any such finding, applicant's application shall be denied and its bond returned.

Such applicant may then apply for a permit under the County's "Pipeline Permit Policy" and any bond, in lieu of returning it to applicant, may be applied to the permit application.

Maintenance, Alteration or Removal

Advance notification in writing will be required for all maintenance, alteration or removal operations except in emergency situation where the safety of the public would be endangered by a delay in repairs. In any such emergency, contact the County Engineer by phone at (940) 835-8584, and inform him of the proposed emergency repairs. As soon as practical, but no later than 48 hours after the start of emergency repairs, notify the County Engineer in writing of the emergency repairs effected, detailing the repairs and the reasons immediate action was required.

Time Limits

A time period of three months is allowed from the issuance of the order to start construction. Once started, the applicant is allowed three months to complete all work. All construction must be completed within six (6) months from the date of issuance. Upon application, extensions may be granted by the Jefferson County Commissioners' Court. Such applications for extensions must be received by the Court at least thirty days before the expiration of the six-month period.

Existing Permits

Any permit, franchise, or instruments of a similar character previously executed by Commissioners' Court shall be subject to the time limit and requirements herein unless specifically stated to the contrary in said permit, franchise or instrument.

GENERAL PRINCIPLES

No utility or common carrier pipeline shall ever be installed or maintained in such manner as to interfere with construction, maintenance or repair of any public road whether currently existing or hereafter constructed on future public right-of-way. Should a utility or common carrier pipeline installed by the applicant ever be found to interfere with the construction, maintenance or repair of an existing public road or future public road, the applicant shall, upon the request of the Commissioners' Court, or the County Engineer, promptly change or alter such installation, at its own expense, in such manner that the same no longer interferes with such construction, maintenance or repair.

No utility or common carrier pipeline shall ever be installed so as to interfere with the use of a public road for vehicular or pedestrian traffic, nor so as to interfere with any drainage now or hereafter effected on or along any such road.

Whenever the relocation of public utilities is necessitated by the improvement of a county road, such relocation shall be promptly made by the utility company or common carrier company at the rate, cost and expense of said company.

Responsibility for Repairs

The applicant, in accordance with the specifications herein contained and/or the directions of the County Engineer or his designated representatives, shall immediately, at its own expense, repair, or replace all public property and all private property, including, but not limited to, driveways, fences, and mail boxes, located in, along or adjacent to public right-of-way, which may be damaged or destroyed by any action or inaction of the applicant.

In any case in which the public welfare demands immediate action to remedy conditions arising out of the actions or inactions of the applicant and in which it is judged that the applicant cannot provide such immediate action, and in any case in which the applicant has failed to comply with the directions of Commissioners' Court, or the County Engineer or his representatives, or to comply with the rules of Jefferson County to perform or cause to be performed, at the remedy such conditions or provide compliance with such directions.

SPECIFICATIONS

General

The applicant shall comply with the rules, regulations, principles, and specifications contained here and/or the directions of the County Engineer, or his representatives. Should the County Engineer or his representative find that the applicant is not in compliance with said rules, regulations, principles, specifications and directions, he will require that the applicant cease all work until such compliance can be obtained. Failure to comply with said rules, regulations, specifications and directions will be cause for issuance of a "Stop Work Notice" until such time as said defects are corrected.

Line Crossing, Method of Placement (See Standard Detail)

Any utility or common carrier pipeline crossing a public road, regardless of roadway surfacing or lack thereof, shall be bored, jacked or driven under the roadway and shall be placed in an iron, steel or other approved casing of approximately the same diameter as the utility or common carrier pipeline. Such casing shall extend one hundred and twenty (120) feet or the width of the right-of-way, plus one foot on each side of the right-of-way, whichever is greater with the casing location to be determined by the Jefferson County Engineering Department.

Water jetting will not be allowed. Excavation will not be allowed within the road right-of-way.

A minimum of three (3) feet must be provided under road ditches.

Uncased, protected pipelines must have a minimum cover of five (5) feet.

Where evidence is presented indicating the impracticality of boring, jacking, or driving the line under the roadway, Commissioners' Court may at its option, grant permission for placement by open cut or required relocations of the crossing to another location where the line can be successfully installed by the specified method.

Where placement by open cut is allowed by Commissioners' Court, it shall be in compliance with these specifications:

- a. Casing The line will be fully cased for one hundred and twenty (120) feet or the width of the right-of-way, plus one foot on each side of the right-of-way, whichever is greater; with the casing location to be determine by the Jefferson County Engineering Department.
- b. Backfill The line must be properly bedded to prevent settlement or damage to the line. The excavation shall be backfilled with cement stabilized sand (1 ½ sack per cubic yard) to within 2" of the sub-base and compacted.
- c. Base The base shall be replaced with crushed limestone base material from 2' below the existing base to 1" below the existing top of base and compacted to a minimum 95% Proctor density. In no case shall the compacted thickness of the replacement base be less than 6".
- d. Surface
 1. Dirt, Shell or Gravel Surface The original surface shall e replaced with an equal thickness of shell or gravel, but in no case less than 6" of well-compacted material will be accepted.
 2. Bituminous Surface The original surface shall be replaced with a 1" greater thickness of hot mix, hot laid, asphaltic concrete, but in no case less than 2" thick.
 3. Concrete Surface The original surface shall be replaced with a 1" greater thickness of minimum 3000 psi Portland Cement concrete, in no case less than 6" thick. Concrete must be replaced in full panel sections only. Replacement concrete is to be reinforced with ½" diameter deformed reinforcing steel bars, 12" on center or equal. Replacement sections must e accurately positioned with reference to existing sections by means of steel dowel bars. Bituminous overlays or concrete shall be replaced with an equal thickness of hot mix, hot laid asphaltic concrete.

Where a line is installed outside of the roadway area, the excavation may be backfilled with excavated material compacted in 6" lifts, and the right-of-way shall be reshaped to its original contours. Excess excavation shall be hauled away.

Lines paralleling Method of Placement

Where the right-of-way is available, no lines shall be placed closer than ten (10) feet to the edge of pavement nor closer than twenty feet from the center line of a road where the road is not paved. No line shall be placed less than three feet below the flow-line of a road ditch without the permission of Jefferson County Commissioners' Court. (See Standard Detail)

Lines may be placed by an open cut of the road shoulder. When excavated material from the cut is piled along the cut, the applicant shall provide minimum 12" wide weep holes at maximum 200-foot intervals and at all low places to allow drainage of the road and adjacent property into the road ditch.

The line shall be properly bedded and may be backfilled with the excavated material compacted in 6" layers. Excess excavation must be hauled away.

Pole, Lines, Location

Utility lines for the transmission of electrical power, or for telephone or telegraph communications, or for similar purposes, may be installed above ground on timber or other sturdy poles. Poles shall be placed as close as practical to the right-of-way lines but in no case closer than fifteen (15) feet from the edge of pavement without the permission of Commissioners' Court.

No guy wires may be anchored within the right-of-way except in the outer one-foot on each side.

Care shall be taken in the placement of poles to minimize the danger that they present to vehicular traffic. The applicant may in some cases be required to construct guardrails for the protection of the public.

Care shall be taken in the placement of poles to avoid damage to existing underground lines. No poles will be placed where they will block drainage.

Pole lines crossing public roads must provide a minimum twenty-two (22) foot vertical clearance.

Inspection Notice

The applicant will notify County Engineer, at (409) 835-8584, at least 48 hours in advance of the start of construction, or of the resumption of construction if discontinued for more than 5 working days.

Line Markers

All lines crossing public roads shall be identified with appropriate markers installed three (3) feet above ground on metal posts located at the point where such line crosses the right-of-way line.

Lines paralleling shall be marked with similar markers every 400 feet, in no event less than one city block. Lines paralleling shall be marked with similar markers at all angle points. Such markers shall be placed on the right-of-way line and the offset to the line indicated.

Traffic Control

The applicant shall maintain at least one lane of traffic in each direction open at all times unless permission to the contrary is granted by the County Engineer.

The applicant shall provide all necessary flagmen, barricades, flashers and any other traffic control devices necessary for the protection of the public and of his own personnel.

Bonds

The common carrier applicant will provide a performance bond as Jefferson County Commissioners' Court may require to provide for the protection of public property. The minimum bond required shall be \$5,000.00 per crossing and \$50,000.00 per mile of parallel construction or fraction thereof.

Significantly larger bonds may be required if judged necessary by Jefferson County Commissioners' Court. No work will begin until the County Engineer has been furnished such bond.

Application Fee

The common carrier application fee shall be \$100.00 per road crossing and \$150.00 per mile of parallel construction or fraction thereof.

ROUTE MAP

Applicant shall submit with application five (5) prints of the County Road Map accurately showing the location and alignment of the line, including all angle points and all tie-ins for crossings of roads and major streams. Applicant shall use the official Jefferson County Road Map at a scale of 1" = 3 miles. This map can be obtained through the office of the County Engineer.

RE: Permit No. 01-P-16

Dear Sir:

Permit 01-P-16, covering crossings in Precincts 3 and 4, contains a clerical error identifying Bill Gaulding Road (a private road) as one of two roads covered by said permit for the crossing of two pipelines, the other being League Road. It was the intent of Chevron Phillips Chemical Company LP to permit the crossing of two pipelines at League Road and *Wilber Road*.

Chevron Phillips Chemical Company LP respectfully submits a new application for your consideration with the appropriate documentation for Wilber Road attached. Thank you.

Regards,
