1.1 Vendor Instructions

Read the document carefully. Follow all instructions. You are responsible for fulfilling all requirements and specifications. Be sure you have a clear understanding of the proposal.

General Requirements apply to all advertised requests for proposals; however, these may be superseded, whole or in part, by the **Scope of Services, Guidelines and Specifications, Requested Responses and Information, or other data contained herein.** Be sure your proposal package is complete.

1.2 Governing Law

Offeror is advised that these requirements shall be fully governed by the laws of the State of Texas and that Jefferson County may request and rely on advice, decisions, and opinions of the Attorney General of Texas and the County Attorney concerning any portion of these requirements.

1.3 Ambiguity, Conflict, or other errors in the RFP

If Offeror discovers any ambiguity, conflict, discrepancy, omission or other error in the RFP, Offeror shall immediately notify the County of such error in writing and request modification or clarification of the document. Modifications will be made by issuing Addenda. Written notice will be given to all parties who have been furnished with the RFP without divulging the source of the request for the same. If the Offeror fails to notify the County prior to the date and time fixed for submission of proposals of an error or ambiguity in the RFP known to Offeror, or an error or ambiguity that reasonably should have been known to Offeror, then Offeror shall not be entitled to compensation or additional time by reason of the error or ambiguity or its later resolution.

The County may also modify the RFP, no later than 48 hours prior to the date and time fixed for submission of proposals, by issuance of an Addendum to all parties who have received the RFP. All addenda will be numbered consecutively, beginning with 1.

1.4 Notification of Most Current Address

1.8 Proposal Obligation

The contents of the proposal and any clarification thereof submitted by the selected Offeror shall become part of the contractual obligation and incorporated by reference into the ensuing contract.

It is intended that this RFP describe the requirements and the response format in sufficient detail to secure comparable proposals. Failure to comply with all provisions of the RFP may result in disqualification.

1.13 Vendor Registration: SAM (System for Award Management)

Vendors doing business with Jefferson County are required to be registered with The System for Award Management (SAM), with an “active” status.

The System for Award Management (SAM) is the Official U.S. Government system that consolidated the capabilities of CCR/FedReg, ORCA, and EPLS. There is NO fee to register for this site. Entities may register at no cost directly from the SAM website at: <https://www.sam.gov>

At the time of award, the Jefferson County Purchasing Department will submit a request to the Awarded Vendor to both:

1. Submit FORM 1295 online via the Texas Ethics Commission website link below.
2. Submit a printed copy of FORM 1295, signed by an Authorized Agent of the Awarded Vendor and notarized to the Jefferson County Purchasing Department.

1.15 Evaluation

Jefferson County reserves the right to use all pertinent information (also learned from sources other than disclosed in the RFP process) that might affect the County’s judgment as to the appropriateness of an award to the best evaluated Offeror. This information may be appended to the proposal evaluation process results. Information on a service provider from reliable sources, and not within the service provider’s proposal, may also be noted and made part of the evaluation file. Jefferson County shall have sole responsibility for determining a reliable

source. Jefferson County reserves the right to conduct written and/or oral discussions/interviews after the proposal opening. The purpose of such discussions/interviews is to provide clarification and/or additional information to make an award in the best interest of Jefferson County.

1.16 Withdrawal of Proposal

The Offeror may withdraw its proposal by submitting a written request over the signature of an authorized individual, as described in paragraph 1.6, to the Purchasing Department any time prior to the submission deadline. The Offeror may thereafter submit a new proposal prior to the deadline. Modification or withdrawal of the proposal in any manner, oral or written, will not be considered if submitted after the deadline.

1.17 Emergency/Declared Disaster Requirements

In the event of an emergency or if Jefferson County is declared a disaster area, by the County, State, or Federal Government, this Acceptance of Offer may be subjected to unusual usage. Contractor shall service the county during such an emergency or declared disaster under the same terms and conditions that apply during non-emergency/disaster conditions. The pricing as specified in this Acceptance of Offer shall apply to serving the County's needs regardless of the circumstances. If Contractor is unable to supply the services under the terms of the Acceptance of Offer, then Contractor shall provide proof of such disruption and a copy of the invoice from Contractor's supplier(s). Additional profit margin as a result of supplying services during an emergency or declared disaster shall not be permitted. In the event that additional equipment, supplies, and materials are required during the declared disaster, additional shipping, handling and drayage fees may apply.

1.18 Minority-Women Business Enterprise Participation

It is the desire of Jefferson County to increase the participation of Minority (MBE) and women-owned (WBE) businesses in its contracting and procurement programs. While the County does not have any preference or set aside programs in place, it is committed to a policy of equitable participation for these firms.

1.19 Award

Jefferson County reserves the right to award this contract on the basis of the **Best Offer** in accordance with the laws of Texas, to waive any formality or irregularity, to make award to more than one Offeror, and/or to reject any or all proposals. In the event the highest dollar Offeror meeting specifications is not awarded a contract, the Offeror may appear before Commissioners' Court and present evidence concerning his responsibility.

1.20 Ownership of Proposal

All proposals become the property of Jefferson County and will not be returned to Offerors.

1.21 Disqualification of Offeror

Upon signing this proposal document, a contractor offering to sell supplies, materials, services, or equipment to Jefferson County certifies that the Offeror has not violated the antitrust laws of this state codified in Section 15.01, et seq, Business & Commerce Code, or the Federal Antitrust Laws, and has not communicated directly or indirectly the offer made to any

competitor or any other person engaged in such line of business. Any or all proposals may be rejected if the County believes that collusion exists among the Offerors.

1.22 Contractual Development

The contents of the RFP and the selected proposal will become an integral part of the contract, but may be modified by provisions of the contract as negotiated. Therefore, the Offeror must be amenable to inclusion in a contract of any information provided (in writing) either in response to this RFP or subsequently during the selection process.

1.23 Assignment

The selected vendor may not assign, sell, or otherwise transfer this contract without written permission of the Jefferson County Commissioners' Court.

1.24 Contract Obligation

Jefferson County Commissioners' Court must award the contract, and the County Judge or other person authorized by Jefferson County Commissioners' Court must sign the contract before it becomes binding on Jefferson County or the Offeror. **Department heads are not authorized to sign agreements for Jefferson County.** Binding agreements shall remain in effect until all products and/or services covered by this proposal have been satisfactorily delivered and accepted.

1.25 Termination

Jefferson County reserves the right to terminate the contract for default if the awarded vendor breached any of the terms therein, including warranties of Offeror, or if the Offeror becomes insolvent or commits acts of bankruptcy. Such right of termination is in addition to and not in lieu of any other remedies Jefferson County may have in law or equity. Default may be construed as, but not limited to, failure to deliver the proper goods and/or services within the proper amount of time, and/or to properly perform any and all other requirements to Jefferson County's satisfaction, and/or to meet all other obligations and requirements. Contracts may be terminated without cause upon thirty (30) days' written notice to either party unless otherwise specified.

1.26 Inspections

Jefferson County reserves the right to inspect any item(s) or service location(s) for compliance with specifications and requirements and needs of the using department. If a proposal cannot furnish a sample of a proposed item, where applicable, for review, or fails to satisfactorily show an ability to perform, the County can reject the Offeror as inadequate.

1.27 Testing

Jefferson County reserves the right to test equipment, supplies, material and goods proposed for quality, compliance with specifications, and ability to meet the needs of the user. Demonstration units must be available for review. Should the goods or services fail to meet requirements and/or be unavailable for evaluation, the offer is subject to rejection.

1.28 Loss, Damage, or Claim

The Offeror shall totally indemnify Jefferson County against all claims by its employees, agents, or representatives or personal injury arising from any cause. In addition, the Offeror shall totally indemnify Jefferson County against all claims of loss or damage to the Offeror's and Jefferson County's property, equipment, and/or supplies.

1.29 Taxes

The contractor and its subcontractors, agents and employees, as the case may be, will be responsible for the payment of all federal, state and local taxes, and deposits or contributions imposed or required by law.

1.30 Non-Discrimination

The successful offeror will be required to comply with the Americans With Disabilities Act and with all provisions of federal, state, county and local (if any) laws and regulations to ensure that no employee or applicant for employment is discriminated against because of race, color, religion, sex, age, handicap or national origin.

1.31 Conflict of Interest

The agreement entered into pursuant to this RFP will contain the Contractor's warranty that, except for bona-fide employees or selling agents maintained by the Contractor for the purpose of securing business, no person or selling agency has been employed or retained to solicit this contract upon an agreement or understanding for commission, percentage or contingency.

Further, the contractor will warrant that no kickbacks, gratuities, or contingency fees have been paid in connection with this RFP or contract and none has been promised contingent upon the award of contract. And, will still further warrant that to its knowledge and best belief, no one being paid under the agreement between the County and the contractor, is engaged in any activities which would constitute a conflict of interest with respect to the purposes of said agreement.

1.32 Waiver of Subrogation

Offeror and Offeror's insurance carrier waive any and all rights whatsoever with regard to subrogation against Jefferson County as an indirect party to any suit arising out of personal or property damages resulting from the Offeror's performance under this agreement.

1.33 Acknowledgment of Insurance Requirements

By signing its proposal, Offeror acknowledges that it has read and understands the insurance requirements for this proposal. Offeror also understands that evidence of required insurance must be submitted within fifteen (15) working days following notification of acceptance of its offer; otherwise, Jefferson County may rescind its acceptance of the Offeror's proposal. The County reserves the right to make the final judgement call to extend any deadline.

Should an emergency or unanticipated event interrupt normal County processes, and bid/proposal/statement of qualifications submissions cannot be received by the Jefferson County Purchasing Department's office by the exact time specified in the RFP and urgent County requirements preclude amendment to the RFP, the time specified for receipt of proposal will be deemed to be extended to the same time of day specified in the solicitation on the first business day on which normal County processes resume.

4. Scope of Services

Jefferson County is a coastal county and is vulnerable to natural and manmade disasters including hurricanes, tornadoes, floods, oil spills, and hazardous material releases.

Disasters such as hurricanes often produce large volumes of debris. Debris and damaged trees create hazardous conditions including blocked roadways/drives and obstacles to emergency vehicles. These hazards and obstacles often block routine, essential, and emergency traffic, both vehicular and pedestrian. One of the first essential steps in securing the community is the removal of hazardous debris to allow for security, emergency, and other service traffic. It is in the best interest of the County to enter into an agreement for a term of two (2) years with a firm to provide debris management and monitoring services as a result of a disaster.

Scope of Services: Debris Removal Monitoring

Staff Mobilization

The debris monitoring firm (Monitor) will be expected to mobilize within 3 days of a written notice to proceed with key staff experienced in various aspects of debris operations (including truck certification, mapping/zone development, etc.) in order to participate in the "response" phase of the disaster event. Additional Monitor staff shall be contacted and put on standby for potential mobilization. Logistical arrangements for out of town staff, such as lodging arrangements for key staff, are the responsibility of the Monitor.

Field Documentation of Work

Monitor shall carefully document debris removal activities as well as hazardous trees and trees that contain hazardous hanging limbs that need to be removed. Monitor will work closely with the Owner and with FEMA/FHWA to determine the most effective methods of documentation to ensure that debris removal is eligible for federal funding. Monitor shall communicate with FEMA to ensure documentation supports project reimbursement. Monitor will work with FEMA in an effort to pre-validate as much eligible debris, tree and limb removal as practical.

Collection Monitoring of Rights-of-Way and Public Property Debris

Monitor will provide collection monitors with each of the Contractor's loading crews to ensure each load is related to the disaster and is eligible for federal reimbursement. The street address and/or GPS coordinates will be recorded on each load ticket. The Monitor will initiate a multi-part ticket in the field for each load, containing information related to the location of the debris, time, date, truck identification, truck driver, etc. The ticket will then be delivered to the Debris Management Site (DMS) or disposal site with the truck driver for load rating. Load ticketing and documentation will also be performed for hazardous tree and limb removal. This project may include monitoring the removal of abandoned cars, boats, marine debris, white goods, beach cleaning, and structure demolition. Monitor will provide similar services if debris removal from private property/right-of-entry (ROE) is approved for this project. Field monitoring of debrishaulers shall be performed in accordance with current FEMA, FHWA and state requirements and in coordination with the Owner.

Monitor Training

Monitor will provide training to all employees concerning safety, eligibility for reimbursement, and disaster specific information. The Monitor will be required to perform adequate training for locally hired staff at no expense to the Owner. All Monitor employees must be able to effectively communicate to a level appropriate to their responsibilities.

Spot Checks and Auditing of Monitors

Monitor will provide roving monitors, field coordinators, and supervisory personnel to ensure that field monitors are making accurate eligibility calls, keeping good documentation, and are working effectively with the debris removal contractor.

Project Mapping

Maps will be used to document the debris removal progress. The final pass along each roadway will be mapped for the Owner's information, and FEMA documentation. Monitor will assist the Owner in public communication and will document and relay any citizen complaints for action by the contractor or the Owner.

Truck Certification

Monitor will establish a team of individuals who will inspect and certify vehicles for hauling storm related debris in accordance with FEMA guidelines. A certification sheet with measurement, photos, and calculations documenting the capacity of the truck is kept for load rating and ticket auditing. Summary books will be kept at each DMS/disposal site for quality control. Certifications should also include a methodology to discourage collection contractors from modifying their vehicle after certification, such as identifying unique attributes to the vehicle like sideboards. Photographs of the vehicle and its driver shall be documented. Periodic spot checks and recertification of trucks that were potentially altered after initial certification shall be performed.

Quality Control/Quality Assurance

A QA/ QC program should be implemented by the Monitor to minimize errors in debris monitor tickets and all documentation functions. Eligibility of work, reliability of documentation and data accuracy are critical in achieving full reimbursement for eligible project expenses.

DMS/Disposal Sites

Monitor will provide trained monitors at DMS and disposal sites to call loads based on the amount of debris in each truck. It is imperative that these monitors make accurate calls to safeguard public funds. Monitors will also make sure that the trucks are empty as they leave the site. Furthermore, monitors will review the truck certification worksheets to make sure the trucks have not been modified to affect their capacity (shortened or removed sideboards, for example). Similar systems will be used to verify, track, and document hauling of reduced debris from DMS sites through final disposal, if applicable.

Data Management

Monitor will establish an advanced project data management system and enter load ticket information on a daily basis. This information can be provided to the Owner, FEMA, and the Contractor GPS coordinates or addresses for tree and stump removal, and debris removal progress, as applicable. Additionally, the staff will work with the Contractor to reconcile invoices, and review debris removal invoices for recommendation of payment by the Owner. Furthermore, Monitor will organize field information for FEMA documentation including photographs and/or GPS coordinates. Monitor will help track invoices for FEMA reimbursement and provide additional supporting information as requested.

Public Information Support

Monitor may be asked to assist the Owner in public outreach following a disaster event as it relates to debris recovery efforts. This may include establishing and staffing (including supplying equipment, phone lines, etc.) a "debris hotline" to respond to public complaints and concerns, or establishing a website.

This also may include assistance with press releases, public notices, and other public information functions. All functions will be performed in a manner to maximize federal and state reimbursement.

Funding Support

The Monitor shall assist the Owner in securing maximum reimbursement for eligible work from state and federal agencies. Specific funding support services may include working with the Owner to develop a cash flow strategy that focuses on early reimbursement. This includes assistance in preparing a debris quantity estimate that is supported by FEMA staff, early preparation of a project worksheet to cover the estimated cost of the entire debris removal effort at the outset of the project, and assisting the Owner and FEMA personnel with Project Worksheets, Versions, etc. Monitor shall be prepared to assist Owner with appeals based on their in-depth knowledge of FEMA and FHWA reimbursement policies. Monitor shall be prepared to assist the Owner, if requested, in tracking progress of Project Worksheets and providing quick response to any problem issue that may arise that could slow funding. Monitor shall be prepared to assist Owner in finding additional funding reimbursement sources related to disaster mitigation.

Recovery Services

The Owner is interested in selecting a monitoring firm with field implementation and FEMA reimbursement experience in community recovery including, but not limited to:

- Right-of-Entry (ROE) administration and data base management
- ROW and private property vegetative/C & D hazard removal monitoring
- ROW and private property demolition coordination and monitoring
- Monitoring of marine debris removal and beach sand cleaning

Other Related Services

Services not specifically identified in this request, but are needed to provide a complete debris removal and documentation project.

Pre-Storm Coordination

Monitor will be prepared to meet with the Owner once prior to June 1st of each year to coordinate services for the upcoming storm season. Additionally, Monitor shall meet with the Owner immediately prior to a credible disaster threat. These meetings shall occur at no cost to the Owner and are meant to facilitate increased coordination of efforts, to discuss the Owner's expectations of the Monitor, and to fast track recovery activities when a disaster strikes.

Safety Meetings and Monitoring Updates

Safety of monitoring staff is of paramount importance. Monitor will hold regular meetings with debris monitors and staff for project updates and to communicate safety issues. If important information becomes available, the staff may meet more frequently.

Coordination Meetings with Contractor(s)

Monitor will initiate a coordination meeting with the debris removal contractor to help expedite the work, and to discuss any issues that may arise during the project. It is important that the monitor and contractor are communicating with each other to ensure a successful project.

Contractor Damages

The Monitor may be asked to develop a database application to track and help the Owner manage contractor damages.

Status Reports

Monitor will provide detailed daily or weekly status reports to the Owner as requested for use and information. Relevant project statistics and cumulative statistics will be shown in a straight forward manner to officials to provide information to the media or to their constituents.

5. Contractual Requirements

The Owner is seeking qualifications and proposals for monitoring and managing the removal of disaster generated debris from public lands, easements, and rights-of-way. Removal of debris from private property may also be included. The primary purpose of these services is to ensure that the entire debris removal, hauling, recycling and/or disposal process is done properly and expeditiously and is eligible for reimbursement under Federal Emergency Management Agency (FEMA) Public Assistance Program, Federal Highway Administration (FHWA) and state emergency management agency guidelines.

Respondent must meet the following general conditions:

- 1) be able to provide monitoring of the clean-up, removal, separation, reduction and disposal of debris as defined in the Scope of Services

7. Proposal Evaluation and Selection Process

7.1 Introduction

The proposal evaluation and selection process is detailed in this section, as are other factors, and the format in which the cost response of each proposal must be submitted.

7.2 Fee Schedule

Offeror must utilize the Fee Schedule Form provided on PAGE 34 of these specifications. However, Offeror *is not limited* to offering the positions and services as listed on the Fee Schedule Form. Offeror may also include additional, optional positions and services.

7.3 Proposal Evaluation and Selection

Prior to the receipt of proposals, the County will establish an Evaluation Committee.

7.4 Evaluation Criteria:

a. References – 25%

References on recent projects of similar size and scope. Including two projects over 500,000 C.Y.

b. Personnel Qualifications – 20 %

Qualifications of firm and key staff.

c. Experience – 20 %

Diverse project experience including: ROW, C&D debris, marine debris, private property, structure demolition, and vessel removal.

d. Capacity to Respond – 20 %

Capacity to respond to major and catastrophic disasters, with few existing pre-event contracts within 500 miles of Jefferson County, Texas.

e. Fee Schedule – 15%

While this will be an important factor, it will be considered as just one factor in the evaluation and selection process.

The Evaluation Committee may elect to require an oral presentation from each qualified Offeror of the information contained in their proposal. Any invitation for an oral presentation will be solely for the purpose of clarifying proposals received from each qualifying Offeror, and will not represent any decision on the part of the evaluation committee as to the selection of a successful Offeror.

Upon completion of their review and any oral presentations, the Evaluation Committee will convene one or more times to discuss the proposals as a group. Each Evaluation Committee member will individually score each proposal independently. Jefferson County Purchasing Department will collect all scores and aggregate the scores of all Committee members. The Purchasing Department will then prepare a report identifying the proposal that scored the

highest in the selection process according to the evaluation criteria described in this RFP and upon the selection of an apparent successful Offeror, the Court shall appoint the Purchasing

Agent to proceed with contract negotiations and attempt to finalize a written contract with the apparent successful Offeror. If a contract cannot be successfully negotiated within a reasonable period of time, negotiations will be terminated, and negotiations with the next highest-ranking Offeror may commence. This process may continue until a contract is signed or the RFP is withdrawn. However, the County may, in its sole judgment and at any time upon failure of negotiations, choose to reissue or withdraw the RFP rather than continue with negotiations. A notice of award will be sent to all Offerors immediately following execution of a written contract.

Key staff of the County will be available to the successful Offeror on a reasonable basis, but may not be available on holidays or weekends.
